

Testimonial

Hi Mark,

Whilst we have only used our float a few times, we are very happy with its performance. Never having towed one before we can't make a comparison but we certainly don't have any complaints.

Several people who know more about horse floats than us have made positive comments about it, in particular the way the head divider can be bolted back and the flush door handle.

We'll be taking it out again at the weekend so I'll take a snap and email it to you.

Thanks very much for the follow-up. The service we've received from Nathan's has been exemplary and we won't hesitate to recommend you.

Regards,

Kathryn Peacock
