

TESTIMONIAL
NATHAN STRAIGHT LOAD 2 HORSE FLOAT

We have recently upgraded to a new Nathan Straight Load 2 Horse Float and our new float is a delight. It is a breeze to tow, and very smooth and stable. The rump bars and bolts are easy to operate; the side door feature that has a catch to hold it open is a great idea, especially in windy weather; the gas lift tailgate and storm door make life very easy when opening and closing these doors; and the jockey wheel is a good size and easy to manoeuvre. From an aesthetic point of view, the float looks very smart with its white paintwork, and the colour contrast decals add a finishing class. The sales staff at Nathan Trailers Brendale were also friendly, reliable and knowledgeable. They paid great attention to detail and are really committed to continually improving their product. We are very happy, our horse is a very happy traveller, and we would highly recommend Nathan's products!
